

Chautauqua Area R.C.M Report
November 19, 2011

Our area would like to thank the regional body for still recognizing our area as a part of the regional body. We understand that we have lost our voting rights at region for no longer traveling to region. We wish that we were still capable of making it to region but unfortunately at this time we will have to just send reports and donations. Our areas desire is still to be a part of this region and maybe in the future as our area grows with more people willing to do service work we will be able to attend again.

The area is still trying to improve on its efficiency with our funds. The phone line (magic jack) has really helped our area in this aspect. We have had the magic jack for about two years, and this last year purchased a five year deal for \$80.00. I suggest to any areas that are smaller to look into this, it is very easy to install and can be forwarded to cell phones. Also we have been able to acquire our own copier/printer and this has helped our area also. We are continuing to look for new avenues that fit our area to help it run more effectively. The area has opened nominations for next year and will close in December and be voted on in January. Also we hope that the regional convention ran smoothly and look forward to seeing its success in the minutes.

Our area is still going to be sending donations to the region. We have sent a donation of \$626.00 to the regional P.O Box which left us with our prudent reserve of \$150.00. Once again would just like to thank the region for understanding our circumstances and still accepting us as a part of the region.

In Loving service
Smitty
